

MESAN USA

Energy Conservation Through Innovation

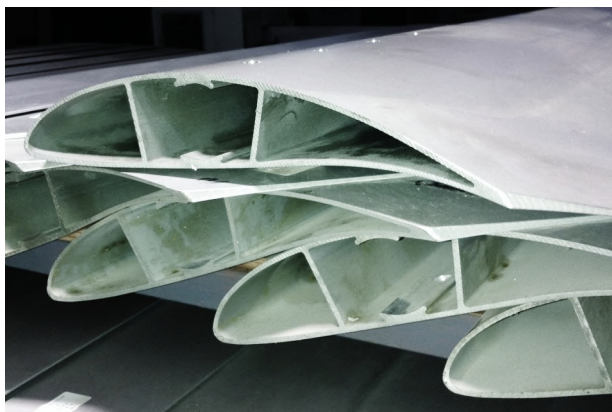

**ISO
9001
QUALITY
ASSURANCE**

The best and most efficient cooling tower fans

As the only cooling tower manufacturer which designs and manufactures its own fans, **MESAN USA** can ensure a perfect match between towers and fans, for the highest combined efficiency (thermal and energy efficiency), and consequently the lowest energy consumption per ton.

Our 10,000 square feet, ISO-9001-certified fan manufacturing facility, boasts state-of-the-art CNC machining centers, and the best and most updated technology, for the highest quality

Our aerodynamic airfoil wide-chord blade design, has a very high airflow rate to noise ratio, which translates into the quietest possible operation, and our unique single-piece billet steel hub is the sturdiest in the market
