Energy Conservation Through Innovation

New Forced-Draft Cooling Towers

Introducing another green innovation from **MESAN USA**: Our new line of forced-draft cooling towers.

The new MFD series is a high-efficiency, CTI-certified*, ASHRAE-90.1-2010 compliant, cooling tower, that comes to fill a need in the market for a high-quality, reliable, easily serviceable, tower. It uses the best quality NICOTRA (Italy) centrifugal fans for the lowest possible noise levels and highest efficiency. **Available for sale on November 2013**
